**Subject:** Caged Tipper

Good afternoon, Scott,

Follow on from our call earlier we are happy to price a Diesel Caged Tipper however at present we are not looking to add any Electric and Hybrid tippers to our fleet until at least 4<sup>th</sup> quarter 2024.

The reason for this is whilst we wait for the range and load weight on Electric tippers to improve it's not an area Tipperhire wants to move to at this present time.

**Long Term Price**

- 3.5t Tipper with cage
- £185.00 + vat per week

Our price includes our fleet management services:

- Access to mobile mechanics
- Workshop facilities with rolling road brake tester
- Online login to R2C to access your compliance docs (<https://www.r2conline.com/products/core/>)
- Vehicle maintenance including fair wear and tear
- Scheduled inspections for operator's License compliance
- MOTs and road Tax

Hope this meets expectations and thanks for giving us the opportunity to quote.

Kind regards

Tom
